Here at Buckswood we believe that it is all about placing our students on the best pathway for them. Knowing the students as we do, we counsel them to help them pick the right university. For us it is not only about getting into the top five universities but more importantly it is about matching the student to the subject, the location (it's not all just about London) and the university that might specialise in a particular activity or sport that they want to excel in. Basically it is about ensuring that the match is right for them so that they are happy and ready to take the next step. There is no magic wand – it takes hours of time chatting, exploring and deciding on what is the best choice.
