

ICT for supporting student progress

At Buckswood, our students have access to a suite of software resources, designed to assist them with their day to day organisation and understand their progress in all areas of their schooling. These resources allow students to access all written and numerical data about their time at school, also to converse and collaborate with teachers and colleagues on a day to day basis.

Software	Accessed by	Used for
SIMs	Personal school account details	Access to.... -Attendance Data -School timetable -Behaviour events (positive and negative) -Academic grades and reports -Effort Tracker scores*
Teams		Internal communication with staff and students.
Email		Internal communication with staff and students. External communication with outside organisations
Effort tracker		
Student printing - 1066 Copier. located in school library		

*Buckswood Effort Tracker – each week students are given an average effort grade for each subject, students and parents are then able to see the overall average each week (scale of 1-4, 1 = Excellent)
