

Success

Foundation Course Level 3

17 - 18 YEARS OLD

At Buckswood, our curriculum aims to be broad and inclusive, but with enough flexibility to allow each student to develop their individual strengths and interests. Learning is a journey of academic and personal discovery, in order to be successful, it is important students choose appropriate academic pathways which will prepare them for the next stage of their education. We believe our curriculum, equips our students with the necessary academic and social skills, to thrive as international citizens in our globalised world.

The foundation course is the third pathway we offer to university. It is project based, practical and assessed through continual assessment with an exam at the end of the course. It is a great option for upper 6th students who may have fallen short in their achievement grades in lower 6th and who are focussed on furthering their studies in any of these three disciplines. Each course is recognised by a specific university.
