Buckswood prides itself on its university placements, A level and IB results are very important, however the final goal, university, is where any school should be judged.

At Buckswood, we shine when it comes to the UCAS process and the correct placement of students. We spend many hours counselling our students and helping them to not only choose the right course, but also the university that they will enjoy, and this is not always London based! Members of the school's Senior Management Team (SMT) involve themselves directly with the process, providing individual mentorship and support throughout the process. For our Sixth Form students this begins in June of Lower Sixth, and runs up to and beyond results day in July and August of Upper Sixth.

A key part of this process is the completion of the personal statement and reference. Our students stand out due to their involvement in the educational philosophy of the school, the 12 pillars. Alongside positive predicted grades, a strong personal statement will reflect on student participation and achievement in all areas of the school, from community and charity work to sport and adventure. Students who take part in all Buckswood has to offer, stand out from the crowd.

If you glance through our statistics, you will find that students have gone on to study a breadth of subjects at a range of institutions, from Petroleum Engineering to Policing (Investigating and Criminology). Each student must feel comfortable in their choice as well as ensuring that the course they study has a good chance of providing a job and a career path. We know all our students as individuals, coupled with one-to-one guidance this means we are able to appropriately advise them and ensure they make appropriate choices.

The Buckswood relationship does not stop when our students go off to University; we're still here for help and advice and our old boys network can help in securing work experience and job placements.

Year	University	Course
